

Social development

Music supports spiritual development by encouraging children to listen to and reflect upon a range of emotions that can be caused and expressed through music. We encourage the children to think creatively and show empathy and resilience in their approach to creating music.

Spiritual development

Music supports social development by encouraging children to cooperate and work well as an ensemble, sensitively challenging the opinions of others when necessary. We expect children to show excellent behaviour, and we aim to develop their understanding of the positive contribution that can be made to society through music.

SMSC in Music

Moral development

Music supports moral development by encouraging children to express themselves with confidence through words and music. Music provides opportunities to explore elements of other cultures and discuss the moral issues that shaped some of the music.

Cultural development

Music supports cultural development by exploring a range of cultures and beliefs through authentic experiences such as visits from musicians. We also go on visits to Liverpool Philharmonic Hall and the Pagoda Art Centre. We respect music from other cultures and learn about the cultural issues that shaped some of the music. We also aim to develop community links through singing in the local community centre at Christmas.
